

Sirs:

I am requesting that the FCC petition filed by Consumer Bankers Association be withdrawn. Constant interruptions by phone is an invasion of my time and privacy. I have a business relationship with at least two of the CBA member firms. As I understand the Indiana law, they are permitted to contact me. However, I suggest that for all CBA member firms to have that right is improper and an intrusion on my life. It is my belief that these firms will loose more than they hope to gain by using this method of marketing solicitation.

Your positive consideration will be greatly appreciated.

Mrs.C.J.Keller
